

## APPLICATION SOFTWARE (APP)

### CODESYS HMI device

612 005 20

The CODESYS HMI devices Kuhnke Vico HMI enable the plant-wide display of process data and control values on remote systems. The visualization project can be independent of the logic application (i.e. the IEC 61131-3 project). It can connect to multiple, different CODESYS compatible controllers simultaneously.

| DESCRIPTION                | VALUE   |
|----------------------------|---|
| <b>Integrated function</b> | Human-machine interface to CODESYS PLCs                               |
| <b>Product status</b>      | Technology  |
| <b>Application</b>         | Operating and monitoring with CODESYS visualization                   |
| <b>Provision</b>           | KUHNKE PLCs in combination with Vico HMI devices                      |
| <b>Requirements</b>        | CODESYS controllers V2.3 or V3.5 in combination with Vico HMI devices |
