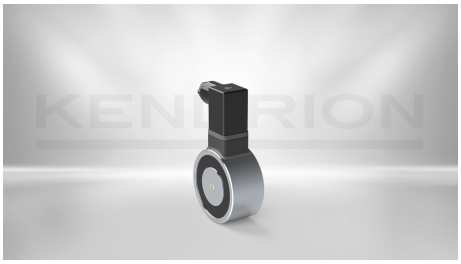
DOOR HOLDING MAGNETS

Door holding magnets GTR070

GTR070.005301



The door holding magnets are mainly used as holding devices on fire protection doors. They hold them in place when open. Controlled by a fire alarm or smoke protection control panel, they release the closures by interrupting the power supply in the event of a fire hazard. Product features: - Coil vacuum encapsulated (IP65) - VdS quality-controlled - Tested according to EN1155 & EN 14637 - Optimised design and quality - Accessories: Anchor plate

DESCRIPTION	VALUE
Nominal voltage	24 V
Duty cycle	100 %
Power consumption	1.5 W
Holding force	1372 N
Connection	plug in connector
Products Approvals	VdS
Mounting	single magnet
