

FLOW REGULATORS AND CHECK VALVES

One-Way Flow Restrictor (with push-in fitting)

47.075

Kendrion Automation has developed a high-quality range of non-return valves for applications requiring non-return and check functions. These one-way restrictors can be screwed directly into the ports of miniature valves or cylinders. They are designed as inlet or outlet restrictors and do have either tube nipple connection including nut or push-in fittings.

DESCRIPTION	VALUE
Pressure range	0 - 12 bar
Nominal orifice	2 mm
Medium	Neutral gases
Type of pneumatic connection	M5, tube 4x1 (4 x 0.65)
Valve type	Check valves and flow regulators
Ambient temperature	-10 ... +70 °C
