

HOLDING MAGNETS

Electro Holding Magnet 60x501

10090001

Holding magnet for holding or clamping ferromagnetic workpieces. The DC-excited coil achieves a holding force of up to 30,000 N when energized. When the supply voltage is switched off, the workpiece to be held falls off. The holding solenoid is maintenance-free and are characterized by a low operating current at high holding forces.

The holding solenoid is available in different sizes in round, flat or square design.

DESCRIPTION	VALUE
Nominal voltage	24 V
Duty cycle	100 %
Power consumption	64.9 W
Holding force	10400 N
Design	square
Dimensions	501,49,60
Holding permanentmagnetic?	no
Thermal class	E 120
Connection	terminal clamp
