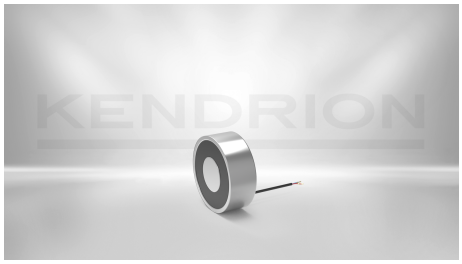
HOLDING MAGNETS

Electro Holding Magnet GTB150

GTB150.000001



Holding magnet for holding or clamping ferromagnetic workpieces. The DC-excited coil achieves a holding force of up to 30,000 N when energized. When the supply voltage is switched off, the workpiece to be held falls off. The holding solenoid is maintenance-free and are characterized by a low operating current at high holding forces. The holding solenoid is available in different sizes in round, flat or square design.

DESCRIPTION	VALUE
Nominal voltage	24 V
Duty cycle	100 %
Power consumption	37 W
Holding force	9000 N
Design	round
Diameter	150 mm
	56
Holding permanentmagnetic?	no
Thermal class	B 130
Connection	cable 300mm
